TO: MICHELLE COVENTRY
FROM: TONY ANDRADE
SUBJECT:

DATE: 01/13/92

Dear Michelle,

I apologize for imposing on you a second time in Phil Francis' absence. I was hoping you might be able to provide me with information concerning smoking and health research funded by Philip Morris and/or the Australian tobacco industry.

In a recent conversation with Chuck Wall he commented that Philip Morris Australia participates in funding smoking and health related research conducted by independent scientists in Australia. I am interested in obtaining any information you might have concerning the specific scientists receiving funding and the nature of their research. I need whatever information is available to prepare for a meeting on Philip Morris sponsored research scheduled for January 20.

Would you kindly fax any relevant information you have on this subject or point me in the direction of the person who can provide such information.

Thank you for your assistance.

Best personal regards.

Tony Andrade
